Prescription Drug Benefits

Your pharmacy coverage is managed by **TrueRx**, a partner that helps make your prescriptions easier and more affordable. Use an in-network pharmacy and review the tiers below to understand what you pay. Member specific information is listed on your UHC ID card.

Same prescription coinsurance across all 3 plans

You pay the percentage below after meeting your plan's applicable deductible.

TIER 1	TIER 2	TIER 3	TIER 4
0%	**30%**	**40%**	**50%**
Generic	**Brand Formulary**	**Brand Non-Formulary**	**Specialty**
FDA-approved generics — same active ingredients at the lowest cost	Preferred brand-name drugs on the plan formulary	Non-preferred brand-name drugs not on the formulary	Specialty medications; prior authorization may apply

⚠ *Out-of-network pharmacies are not covered. Please use in-network retail or mail-order pharmacies only.*

MyClinicalRx (MCRx) is a specialty pharmacy management program included with your prescription drug benefit through TrueRx.

WHO IS IT FOR?

MCRx supports members taking eligible specialty medications. A specialty pharmacist works with you and your doctor to coordinate access, support safe medication use, and explore financial assistance.

PROGRAM BENEFITS

Cost to as low as $0
MCRx finds co-pay assistance and foundation programs on your behalf.

Dedicated Pharmacist
Personalized clinical support for complex specialty medications.

Home Delivery
Specialty medications shipped directly to you for convenience.

Physician Coordination
MCRx works directly with your doctor for prior authorizations and refills.

HOW THE PROGRAM WORKS

STEP 1
Your Prescription Is Sent
Your doctor sends your qualifying specialty medication to an in-network pharmacy.

STEP 2
MCRx Reviews Your Case
The clinical team reviews your medication and looks for available assistance programs.

STEP 3
Respond & Enroll
A MCRx representative contacts you to complete required enrollment steps.

STEP 4
Savings Applied
If eligible, assistance is applied to reduce your out-of-pocket cost — potentially to $0.

IMPORTANT — YOUR PARTICIPATION IS REQUIRED.

If you are contacted by the MCRx program, you must respond and complete all required steps to receive cost assistance. Assistance is not automatic — if you decline or do not complete the process, you may be responsible for the full cost of your specialty medication. MCRx assistance applies only to qualifying medications identified by the program.

Prescription Drug Benefits (Contd.)

SHARX - MEDICATION ACCESS SUPPORT

SHARx helps members explore access options for a limited number of high-cost specialty medications excluded from the IPFF prescription drug plan. It is a separate advocacy service and does not replace your TrueRx prescription coverage.

HOW SHARX CAN HELP

- **Specific Medication Support**: Support for certain excluded medications approved for referral.
- **No Cost to You**: Qualifying medications may be available at no cost through alternative funding or assistance programs.
- **Personalized Support**: A SHARx advocate will help guide you through the process.

HOW SHARX WORKS

If your medication is referred to SHARx, a representative may contact you directly. To receive assistance:

1. Respond to SHARx's outreach.
2. Complete the required forms and authorizations.
3. Provide any requested prescription or provider information.
4. Stay in contact with your SHARx advocate.

⚠ **IMPORTANT**

*Medications referred to SHARx are **not covered** by the IPFF prescription drug plan.*

Assistance is not automatic and requires your active participation. If you decline or do not complete the SHARx process, you may be responsible for the full cost.
